PHP • MySQL

EXPERIENCE

ZOMATO | TRIAL WEEK INTERN

December 2015 | Gurgaon, India

- Built a software which uses Common Crawl's petabytes of collected scrapped data of websites to detect if it belongs to a restaurant and scrapped details such as Name,Address,Phone Number.. etc.
- Built a search engine for Restaurants. It collects data by crawling through the restaurant's data from Facebook Restaurant pages and Google Places. The results were cached to deliver faster response.
- Built an API for the Restaurant's Search Engine web app.

GOOGLE | STUDENT DEVELOPER, GOOGLE SUMMER OF CODE'15

May 2015 – August 2015 | New Delhi, India

- Created a well-structured, consistent, good looking and well usable UI/UX for moin2 which is a high performance wiki engine written in Python.
- Wrote several javascript widget plugins for editor and Quicklinks.
- Bug Fixes/ Patch submissions to Moin Moin Wiki Engine.
