Scheme 1: This is something!

Compounds 1 and 2 in Scheme 1. Here’s a reference to in-text creation of 3 that we can later refer to.

Scheme 2: This is something else!

Compounds 4 and 5 in Scheme 2. Hey remember 3? chemnum still remembers it correctly, and see how the compound numbering continues throughout the scheme diagrams!

Scheme 3: This is again something else!

Compounds 9 and 10 in Scheme 3. (Yes we manually modified the compound numbering counter after Scheme 2).
