

Article Two Columns

Replace by your Title

Name of first Student, Name of second Student, Name of third Student

Activities Report

Abstract—The Abstract should not exceed 200 words and should not be an introductory text on the subject of the report, but a summary of the whole report, describing what the author(s) did, how it was done, the main results and their importance. It should be discursive and not just a list of topics covered in the report.

Index Terms—(place here Keywords related to activity, L^AT_EX, paper).

1 INTRODUCTION

THIS demo file is intended to serve as a “starter file” for writing the Activity/Learning Reports of Independent Studies, produced under L^AT_EX using IEEEtrans class.

2 SECOND SECTION

Write here Some text. Note that some special characters need an escape sequence. For example, to write a % sign you need to escape the character with a backslash (\%).

2.1 Now a Subsection

Write here Some text. This is a bibliographic citation [1].

2.2 Abbreviations and Acronyms

This template is ready to define abbreviations and acronyms the first time they are used in the text, even after they have been defined in the abstract. For the students of Instituto

- Name of first Student, nr. 12345,
E-mail: aluno1@tecnico.ulisboa.pt,
- Name of second Student, nr. 67890,
E-mail: aluno2@tecnico.ulisboa.pt,
- Name of third Student, nr. 98765,
E-mail: aluno3@tecnico.ulisboa.pt,
Instituto Superior Técnico, Universidade de Lisboa.

Manuscript received Month Day, 2015.

Superior Técnico (IST) it becomes very easy to make references to the School just using the respective acronym. The first time it was used, in previous paragraph, the name of IST was presented in extended form, but now only the acronym was typed.

2.3 Figures

Placing figures is also very easy, as for example the following Figure 1:

Figure 1. Here I am.

With this construct the reference in text to Figure 1 is straightforward.

2.4 Equations

Writing equations or math expressions, for example $\alpha + \beta = \chi$, is also very easy.

(1.0) Excellent	ACTIVITY						DOCUMENT						
	Object×2	Opt×1	Exec×4	Summ×.5	Concl×.5	SCORE	Struct×.25	Ortog×.25	Exec×4	Form×.25	Titles×.5	File×.5	SCORE
(0.8) Very Good													
(0.6) Good													
(0.4) Fair													
(0.2) Weak													

Another method to write math expressions or equations is the following construct, normally numbered automatically:

$$\delta + \epsilon = \theta \quad (1)$$

With this construct the reference in text to Equation 1 is straightforward.

2.5 Subsection

Write here Some text. This is another bibliographic citation [2].

3 CONCLUSION

The conclusions.

ACKNOWLEDGMENTS

The authors would like to thank...
