Outline

Disclaimer

- ► THIS IS NOT AN OFFICIAL LEHIGH TEMPLATE.
- ► Several students attending the LTS Seminar wanted to use it so that I put it in a format that is usable.
- ► Modify if you have suggestions to improve it and pass on the modifications so that anyone interested in using LATEXfor presentations could benefit.

How to

How to use it
How to install it to your path

- Place the contents within your TEXINPUTS path.
- On Linux, modify the TEXINPUTS variable to point to the directory where these files exist.
- For example: `export TEXINPUTS=${HOME}/LaTeX//:${TEXINPUTS}`
- On MacTeX, you need to install it to ${HOME}/Library/texmf
- If you have admin permission copy it to your TeX tree to the directory where the other beamer themes are located e.g. /usr/share/texmf-texlive/tex/latex/beamer/themes
- To use the theme, add the command `\usetheme{lehigh}` to the preamble of your document.
- Compile using pdflatex to get the pdf file.
- Feel free to modify the theme to suit your needs.
- NO, I won't modify the theme for your needs.
