## E. DEMONSTRATE TABLES

Here is a really simple table.

Table E.1.  
American Presidents

<b>Number</b>	<b>Name</b>
1	George Washington
2	John Adams
3	Thomas Jefferson

There are 72.27 points per inch. I like to put 2 points of vertical space between the heading (Number Name) and the first line (1 George Washington) of the table.

Table E.2.  
American Presidents with 2pt vertical space after heading

<b>Number</b>	<b>Name</b>
1	George Washington
2	John Adams
3	Thomas Jefferson

L<sup>A</sup>T<sub>E</sub>X can print horizontal and vertical rules in tables. I don't like the way this looks.

Table E.3.  
American Presidents with horizontal and vertical lines

<b>#</b>	<b>Name</b>
1	George Washington
2	John Adams
3	Thomas Jefferson

Here is a more complicated table.

Table E.4.  
C Bitwise Operators

<b>A</b>	<b>B</b>	<b>A B</b>	<b>A&amp;B</b>
0	0	0	0
0	1	1	0
1	0	1	0
1	1	1	1

You can use Plain  $\text{\TeX}$ 's `\halign` command to make tables also. If you can't do a complicated table using  $\text{\LaTeX}$  commands you may want to try using Plain  $\text{\TeX}$  commands.  $\text{\LaTeX}$ 's table making commands use Plain  $\text{\TeX}$  commands.

Table E.5.  
American Presidents using `\halign`

<b>Number</b>	<b>Name</b>
1	George Washington
2	John Adams
3	Thomas Jefferson

The next page shows how to do a table that is too long to fit on one page.

From `\verb+http://www.biblegateway.com/passage/?book_id=1&chapter=1&version=50+`:

`\begin{quote}`

1 In the beginning God created the heavens and the earth.  
2 The earth was without form,  
and void;  
and darkness was on the face of the deep.  
And the Spirit of God was hovering over the face of the waters.

3 Then God said, ‘‘Let there be light’’;  
and there was light.

4 And God saw the light,  
that it was good;  
and God divided the light from the darkness.

5 God called the light Day,  
and the darkness He called Night.

So the evening and the morning were the first day.
