This is the title

Full Name, Full Name, Full Name, and Full Name

The abstract should be a single paragraph which summarises the content of the article. Any references in the abstract should be written out in full e.g. [Surname et al., Journal Title, 2000, 35, 3523].

The main text of the article should appear here. Please note that communications do not have section headings.

Equations can be typeset inline e.g. \( y = mx + c \) or displayed with and without numbers:

\[
A = \pi r^2
\]

\[
\frac{Y}{Ex} r^2 = 2r
\] \hspace{1cm}(1)

Graphics should be inserted on the page where they are first mentioned (unless they are equations, which appear in the flow of the text).

Fig. 1 An example figure.

Tables typeset in RSC house style do not include vertical lines. Table footnote symbols are lower-case italic letters and are typeset at the bottom of the table. Table captions do not end in a full point.

<table>
<thead>
<tr>
<th>Header one/units</th>
<th>Header two</th>
<th>Header three</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>2</td>
<td>3</td>
</tr>
<tr>
<td>4</td>
<td>5</td>
<td>6</td>
</tr>
<tr>
<td>7</td>
<td>8</td>
<td>9</td>
</tr>
<tr>
<td>10</td>
<td>11</td>
<td>12</td>
</tr>
</tbody>
</table>

Adding notes to tables can be complicated. Perhaps the easiest method is to generate these manually.

You can also put lists into the text. You can have bulleted or numbered lists of almost any kind. The \texttt{mhchem} package can also be used so that formulae are easy to input: \texttt{\ce{H2SO4}} gives \( \text{H}_2\text{SO}_4 \).

The conclusions section should come at the end of article. For the reference section, the style file \texttt{rsc.bst} can be used to generate the correct reference style.

Author Contributions

We strongly encourage authors to include author contributions and recommend using \texttt{CRediT} for standardised contribution descriptions. Please refer to our general author guidelines for more information about authorship.

Conflicts of interest

In accordance with our policy on Conflicts of interest please ensure that a conflicts of interest statement is included in your manuscript here. Please note that this statement is required for all submitted manuscripts. If no conflicts exist, please state that “There are no conflicts to declare”.

Notes and references

Footnotes should appear here. These might include comments relevant to but not central to the matter under discussion, limited experimental and spectral data, and crystallographic data.
