Keywords: [a series of capitalized words, separated with commas]

ABSTRACT

Abstract text here.

AUTHOR SUMMARY

Author Summary here.

[Body of article. See NETNSample.tex for examples of all of the elements available for use in an NETN manuscript, including text boxes, lists, citations and references, and Technical Terms.]

ACKNOWLEDGMENTS

The Funder and award ID information you input at submission will be introduced by the publisher under a Funding Information head during production. Please use this space for any additional acknowledgements and verbiage required by your funders.
SUPPORTING INFORMATION
This is an optional section. Please use this space to provide information about any supporting information referred to in your manuscript.

COMPETING INTERESTS
This is an optional section. If you declared a conflict of interest when you submitted your manuscript, please use this space to provide details about this conflict.

TECHNICAL TERMS
All NETN article types require Technical Terms.

Identify approximately 10 key terms that are mentioned in your article and whose usage and definition may not be familiar across the broad readership of the journal. Provide brief (20-word or less) definitions for each term, avoiding in these definitions the use of jargon, or highly technical or specialized language. When the article is typeset, the Technical Terms will appear in the margins at or near their first mention in the text.

In your manuscript, bold the first occurrence of each Technical Term and then provide a list of the terms and their definitions at the end of the manuscript after the references.

TECHNICAL TERMS
Technical Term a key term that is mentioned in an NETN article and whose usage and definition may not be familiar across the broad readership of the journal.

Technical Term a key term that is mentioned in an NETN article and whose usage and definition may not be familiar across the broad readership of the journal.

Technical Term a key term that is mentioned in an NETN article and whose usage and definition may not be familiar across the broad readership of the journal.
